PROFESSIONAL SUMMARY

I'm Danial Rashidi, a passionate Backend programmer and System Administrator who thrives on creating efficient, modern, and scalable solutions. I've built sleek, user-friendly websites using Django, bringing innovation and performance to every project. My skills in Python, Linux, Django, HTML, CSS and Go drive my success. Fueled by curiosity and a love for learning, I'm always pushing the boundaries in tech. Let's create something extraordinary!

EXPERIENCE

Wordpress Developer

2023 - 2024

Mobile Khorsandi

During my time as a Wordpress Developer at Mobile Khorsandi, I was responsible for developing and maintaining Wordpress websites, ensuring their functionality and performance. I implemented custom themes and plugins to meet specific project requirements, and conducted troubleshooting and debugging to address any issues or errors that arose.

Wordpress Developer

2022 - 2023

Pazoki Shop

At Pazoki Shop, I took charge of designing and managing websites, focusing on smooth functionality and high performance. I also handled troubleshooting and debugging to resolve any technical challenges, ensuring seamless user experiences throughout.
